### **About Fertoz**

Fertoz is exploring for high-grade phosphate resources in Canada and the United States of America, which are two of the largest agricultural economies in the world and which both import phosphate rock. Fertoz has two projects in Canada – Wapiti (East and West), Fernie (Marten, Barnes Lake, Crows Nest ), which are all proximate to infrastructure - and an option on one project in Idaho, USA, again proximate to infrastructure. Fertoz is targeting small, high-grade resources in the Americas that can be commercialised quickly and inexpensively, with high-grade product sold to organic farmers or third-party fertilizer plants.
