## Organic Input Phosphate Fertilizer

### 0 – 7 – 0

**Pulverized Rock Phosphate**

### Guaranteed Analysis:

**Available Phosphoric Acid (P2O5) 7%**

Derived from rock phosphate

“ Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html> ”

This rock phosphate should be incorporated in the soil at seeding or surface spread, as rock, or in blends, to provide vital phosphate for plant growth.
