## Fertoz signs Memorandum of Understanding with Limoges Seed Farms

### HIGHLIGHTS

- **Fertoz signs Marketing and Distribution Memorandum of Understanding with third-generation Canadian seed business and crop growth expert Limoges Seed Farms**
- **Expected to accelerate growth and help to cement Fertoz's position as a leading organic fertiliser supplier and producer in North America, with the parties to supply superior quality rock phosphate to customers in Canada's central Prairie Provinces**
- **Agreement has agronomic, volume and price targets**

Organic phosphate development company Fertoz Ltd (ASX: FTZ, "Fertoz" or the "Company") is pleased to advise that the Company has signed a Marketing and Distribution Memorandum of Understanding ("MoU") with Limoges Seed Farms ("Limoges"), a third-generation pedigree seed farm which empowers farmers to improve crop yields and production practices.

Fertoz, executing on its strategy of growth with innovative distribution partners, is advancing the MoU as a detailed agronomic support, volume, pricing and products services agreement.

Fertoz Executive Chairman, Pat Avery, said:

*"This is a great opportunity for Fertoz, as Limoges has a long history of providing sound agronomic-based approaches in their products and services. Limoges is recognised for fostering company growth and this will help us to expand as we are able to offer exceptional fertiliser options to growers in the central Alberta and Saskatchewan Provinces.*

*"We expect this to fast-track our growth opportunities, as this will help us supply a large farming area, with rapidly increasing organic acres and conventional acres, where Fertoz's high-quality products can vastly improve crop yield and soil health."*

Alberta-based Limoges supplies progressive solutions to improve farm production and accelerate business growth by providing access to superior crop genetics and advanced fertiliser. The parties view Fertoz's rock phosphate as a solid strategic fit which can drive growth in organic products and acres in the central Prairie Provinces.

Limoges founder, Marcel Limoges, explains:

*“We are pleased to join with Fertoz as it scales up and continues to penetrate the market. We are at the forefront of agribusiness and will help Fertoz to capture additional revenue and explore various opportunities to improve operations.”*

*“We provide highly sought-after agronomic services on crops and soils, and believe that through improving production quality, we can assist Fertoz to generate a higher return on investment.”*

*Checking the crop at Limoges Seed Farms*

Richard Limoges, the lead agronomist at Limoges, comments:

*“Limoges provides farmers with a range of advanced science-backed sustainable and environmental practices, inoculant technologies, consulting services and carbon capture. We look forward to building on this service offering as we join with Fertoz, encouraging a ‘think outside the box’ attitude which we expect will accelerate growth prospects.”*

**Forward Looking Statements**

This release includes forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as “may”, “will”, “expect”, “intend”, “plan”, “estimate”, “anticipate”, “continue”, and “guidance”, or other similar words and may include, without limitation statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs. Forward looking statements in this release include, but are not limited to, the capital and operating cost estimates and economic analyses from the Scoping Study.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the Company’s actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, exploration and project development risks, political and social risks, environmental risks, changes to government legislation, extreme weather conditions, retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the company and its management’s good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and that could impact the Company’s business and operations in the future. The Company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the Company’s business or operations will not be impacted in any material manner by these or other factors not foreseen or foreseeable by the Company or management or that are beyond the Company’s control. Accordingly, readers are cautioned not to place undue reliance on forward looking statements.

Forward looking statements in this release are given as at the date of issue only. Subject to any continuing obligations under applicable law or any relevant Australian Securities Exchange listing rules, in providing this information the Company does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.
