ASX RELEASE / MEDIA RELEASE

Organic fertiliser sales and marketing progress Investor update conference call on May 10, 10:30am AEST

Highlights

- Marketing efforts have supported growth in Fertoz's phosphate sales and order book with a range of North American agricultural customers
- Investor Conference Call — Wednesday 10 May at 10 30am AEST

Organic phosphate supplier Fertoz Ltd ("**Fertoz**" or "**the Company**", ASX: FTZ) is pleased to advise of positive sales, marketing and regulatory progress for the Company's North American operations.

The Company's concerted marketing efforts over the North American winter have led to Fertoz achieving delivery of orders of organic rock phosphate to a diverse group of customers. These include fertiliser manufacturers, multi-site distributors, growers, dealers and North American horticultural groups of significant presence.

Fertoz's order book continues to grow and the Company sees scope for a material ramp in sales volumes in the current year. The Company expects recent positive crop responses to support Fertoz's move into customers' sustainable crop rotations and pursuit of market share growth.

Fertoz will provide further details of recent sales, marketing and agronomic success, and the Company's path to full mining permitting, on an Investor Conference Call with Executive Chairman Pat Avery next Wednesday 10 May.
