ASX RELEASE / MEDIA RELEASE

Amended Appendix 3B

The Company provides the attached amended Appendix 3B which replaces the Appendix 3B lodged on the 16 December 2014. The attached amended Appendix 3B provides the correct number of quoted securities being 43,404,228 fully paid ordinary shares and 2,855,367 unquoted fully paid ordinary shares. All other information remained unchanged.

About Fertoz

Fertoz is exploring for high-grade phosphate resources in Canada and the United States of America, which are two of the largest agricultural economies in the world and which both import phosphate rock. Fertoz has two projects in Canada – Wapiti (East and West), and Fernie (Marten, Barnes Lake, Crows Nest), which are all proximate to infrastructure - and an option on one project in Idaho, USA, again proximate to infrastructure. Fertoz is targeting small, high-grade resources in the Americas that can be commercialised quickly and inexpensively, with high-grade product sold to organic farmers, conventional farmers or third-party fertilizer plants. Fertoz also has a joint venture in Australia to distribute a fused calcium magnesium phosphate (FertAg) to counter the acidic soils across much of Australia's key farming regions. FertAg does not leach from the soil and is suitable for organic and conventional agriculture.
