ASX RELEASE / MEDIA RELEASE

Fertoz shares to be released from escrow

Fertoz Limited (the “**Company**”) in accordance with ASX listing rule 3.10A advises that 3,470,752 shares will be released from escrow on 2 September 2015.

The company has a total of 47,034,145 shares on issue and quoted on the ASX. Appendix 3B, seeking quotation of the shares which are to be released from escrow, is attached.

About Fertoz

Fertoz is an emerging agribusiness progressing towards commercial production in North America and an expanding fertiliser distribution business in Australia.

Fertoz is exploring for high-grade phosphate resources in Canada and the United States of America, two of the largest agricultural economies in the world and both of which are net phosphate rock importers. Fertoz has two projects in Canada – Wapiti (East and West), and Fernie (Marten, Barnes Lake, Crows Nest), which are all proximate to infrastructure – and an option on a project in Idaho, USA, again proximate to infrastructure. Fertoz is targeting small, high-grade resources in the Americas that can be commercialised quickly and inexpensively, with high-grade product sold to organic farmers, conventional farmers or third-party fertiliser plants.

Fertoz also has the FertAg JV in Australia set up to distribute fused calcium magnesium silicate phosphate products to counter the acidic soils found across much of Australia’s key farming regions. FertAg products provide valuable macronutrient conditioning to soils while reducing unnecessary contamination of creek and reef systems through its slow release properties
