

Fertoz

Products – Call for Current Quote!

Spring and summer orders are underway and input prices are changing. Select products and/or blends. Let us know if you want products in bulk or packaged in totes or smaller bags for extra cost.

Products can be delivered; Fertoz will obtain 4 current quotes, and freight charges will be added to the price. Freight costs will be added to partial loads.

	Product Name	Product and Description
Fertoz Brand	Fertoz-Phos POWDER Organic	<u>Powdered Rock Phosphate</u> Total P2O5: >20% Available P2O5: 7% Pulverized to a 30-70 mesh powder. Apply directly to soil. Surface spread using a lime spreader, mechanical spreader or custom applicator. Option to screen finer (50-100 mesh) and re-dry for ease of transportation and application. *Organic, regenerative, sustainable, broad acres
	Fertoz-Phos FINE MESH Organic	<u>325 Fine Mesh Rock Phosphate</u> Total P2O5: >20% Available P2O5: 7% Product is mechanically ground to a 325 fine mesh powder. Suitable for use in fertigation, drip tube irrigation or as a foliar. Create a suspension by adding citric acid and rock phosphate to water and agitate until dissolved. *Organic, regenerative, sustainable, broad acres
	Fertoz-Phos GRANULAR Organic	<u>Granular Rock Phosphate</u> Total P2O5: >20% Available P2O5: 7% Granulated for ease of application using a fertilizer spreader or air seeder. *Organic, regenerative, sustainable, broad acres
	Fertoz-Phos + S POWDER Organic	<u>Powdered Rock Phosphate and Sulphur Blend</u> Blend of 70% powdered rock phosphate and 30% Elemental Sulphur. For use in all soil types. Specifically beneficial in high pH soil. Sulphur neutralizes soil and improves phosphorus availability. *Organic
	Fertoz-Phos + S GRANULAR Organic	<u>Granular Rock Phosphate and Sulphur Blends</u> Blend of 70% granular rock phosphate and 30% granulated Elemental Sulphur. For use in all soil types. Specifically beneficial in high pH soil. Sulphur neutralizes soil and improves phosphorus availability. Organic, regenerative, sustainable, broad acres
	Fertoz-Phos + Value Added Products GRANULAR Organic	<u>Granular Rock Phosphate Custom Blends</u> Blend rock phosphate with any of the following organic products: <ul style="list-style-type: none"> • Alfalfa Green Nitrogen • Sulphate of Potash • Elemental Sulphur • Gypsum • Humates • Biologicals • Micronutrient (Zn, B, Mn, Fe)
	Fertoz-Phos + Value Added Products GRANULAR Conventional Broad Acres	<u>Granular Rock Phosphate Custom Blends</u> Blend rock phosphate with any of the following conventional products: <ul style="list-style-type: none"> • Sulphate of Potash • Gypsum • Micronutrients • Ammonium Phosphates (MAP or DAP)

	Product Name	Product and Description
PhoSul	PhoSul	<u>Granular Rock Phosphate, Sulphur and Gypsum</u> Total P2O5: 19% Available P2O5: 6% Ca: 30% S: 5-12% Granulated to 220 SGN for ease of application. Formulated to enhance natural biological conversion process of phosphorus availability. *Organic, regenerative, sustainable, broad acres
	Product Name	Product and Description
WAMCO	Nutrient Vigour Plus 2-4-4-2	<u>Alfalfa Green Soil Nutrition</u> Blend of Alfalfa, rock phosphate and sulphate of potash. Plant and sedimentary based pellet that is a soil conditioner, a soil amendment, an anti-compaction agent, and an effective fertilizer that adds over 30 nutrients to balance the soil. Contains fibre to improve soil moisture retention. Neutralizes acidic soil and buffers alkaline soil. Available as All Natural or Certified Organic.
WAMCO	Nutrient Vigour 4-4-0	Plant based pellet that is a soil conditioner, a soil amendment, an anti-compaction agent, and an effective fertilizer that adds over 30 nutrients to balance the soil. Contains fibre to improve soil moisture retention. Neutralizes acidic soil and buffers alkaline soil. Available as All Natural or Certified Organic.

	Product Name	Product and Description
Humic Growth Solutions	Humi[K] Phos	<u>Granular Rock Phosphate with Humate</u> Total P2O5: 23% Available P2O5: 7% Ca: 25% SiO2: 11% Humic Acid: 4% Granulated to 200 - 400 SGN. 75 lbs HumiK soluble humic acid powder per ton. Synergistic blend that actively improves soil health, increases soil microbiology and activity and renders the phosphate more available to the plant. Increases availability of other soil nutrients. *Organic, regenerative, sustainable, broad acres
	Humi[K] Phos + Zn	<u>Granular Rock Phosphate with Humate and Zinc</u> Synergistic blend that actively improves soil health, increases soil microbiology and activity and renders the phosphate more available to the plant. Increases availability of other soil nutrients. *Organic, regenerative, sustainable, broad acres
	Humi[K] Phos + S + Zn	<u>Granular Rock Phosphate with Humate, Sulphur and Zinc</u> Synergistic blend that actively improves soil health, increases soil microbiology and activity and renders the phosphate more available to the plant. Increases availability of other soil nutrients. Great solution for high pH soil through added sulphur. *Organic, regenerative, sustainable, broad acres
