

# Four Alberta Producers are Seeing Early Growth Benefits from Fertoz Rock Phosphate in Wheat and Oats

*Northern Alberta - La Crete, Fort Vermillion and Buffalo Head Prairie*

*Data and Photos by: MARA Research Station*

- Shoot Health
- Vigorous Plants
- Even Emergence
- Improved Root Development

UNTREATED ON LEFT, FERTOZ ROCK PHOSPHATE ON RIGHT

- Germination rates were increased by 14 – 36 % in treated strips
